

ADVENTURE KIDS CLUB

Growing smiles deserve the right timing.

By watching growth and tooth eruption over time, we can step in at the right moment if help is needed. The GO Adventure Kids Club is our complimentary observation program for children who are not quite ready for braces but benefit from regular check-ins.

Every six months, we schedule a no-charge observation visit to:

- Monitor how teeth are erupting
- Evaluate jaw growth and bite development
- Catch concerns early
- Plan treatment at the ideal time

Earn Your Adventure Pins

At each visit, kids can celebrate their smile progress and their lives by earning fun pins for sharing what they have been learning, creating, or accomplishing.

GO
Welcome to the GO Adventure Kids Club

SPORTS
Tell us about a sport you are trying or improving in

CREATIVITY
Show us something you have made or created

ACTS OF KINDNESS
Share how you have helped someone recently

ACADEMICS
